

I benefit greatly from being able to listen to XM radio's traffic and weather channels when I am traveling. I always know right where to go to get information that is uninterrupted and immediate.

XM provides GREAT variety and quality of programming not found anywhere on regular broadcast radio. I pay for these services, and it should not be up to the NAB to dictate what I am permitted to hear.

I respectfully urge the FCC to reject NAB's petition 04-160 and support XM's ability to provide the kind of programming I am used to, and that I demand and deserve.

Thank you,

Kenny Beaty
